Mr. Harold Weisberg

The 4-part series of CBS on the Warren Report refreshed my memory of the discussion you gave in Golden Gate Park of San Francisco many months ago. I am still lost in admiration at your tireless efforts to get further pertinent information before the citizens of America. Your dedication is in the finest level of public service.

Please forgive me for not offering you praise when I listened in on the informal discussions you permitted later that evening; the idea of a conspiracy cautioned me to complete silence as an

observer, even on such a relatively pleasant occasion.

Could you send me information on how to order the sequel to "Whitewash", or any other literature you recommend.

Cordially,
Jim McDonald
